81% OF MEN ARE CRANKS.

EVEN PERFECT HUSBANDS MAY BE COFFEE CRANKS

A husband may be the kindest man in the world-and still be a "Coffee Crank." But because he hates to hurt his wife's feelings he hesitates to criticize her coffee.

Blue Ribbon Coffee was created for just such husbands. It's the first "Man's Coffee" ever made—blended to the critical tastes of husbands, fathers, sons and brothers. Different from all the coffees of the past. Surpassingly fragrant, inimitably rare and mellow. And packed in vacuum-sealed tins to keep it ever-fresh and flavory.

Blue Ribbon Coffee is sold everywhere in pound and half pound tins. Serve it to your husband without telling him the kind it is. This coffee is blended to suit the Canadian method of making coffee. Truly a man's coffee.

No Radio is modern without **HARMONIC** Amplification

WHAT it Harmonic Amplification— this outstanding DeForest Crosley, contribution to radio enjoyment which has made these new models sell as no line has ever sold before?

What does Harmonic Amplification offer you — in terms of greatly increased musical satisfaction?

In Harmonic Amplification, DeForest Crosley engineers have achieved the full Crosley engineers have achieved the full colour of True harmonics, not the mere outline of muic. Pair radios have cut off many of the harmonics. This produced a flatness of colour, a lack of fidelity easily recognized by the musician. Today, DeForeit Crosley reproduces harmonics in their full beauty and colour—for the first time in radio. Music to delight the ear of all.

Amosing Volues—
New "Tone Control"

Yet despite their manifold advantages the new DeForest cost less than ordinary radios. The Dominion Series presents an entirely new conception of radio value. The Harmonic Series offers many advanced fea-tures at amazing values — including models with a new "Tone Control" and an exclusive type of Automatic Volume Control. Every model

OUR OWN GRANITE AND LIMESTONE Use of Hastings County materials in the construction of St Edmund's Roman Catholic Church at Stoco, which was blessed and opened on Wednesday of this week shows what beauty the stone of Hastings can confer upon a building. Pink gran-ites from the Clare River about three miles away and Crookston limestone as facing make the church one of the most

beautiful and imposing of structures.

Not yet have builders learned to use Not yet have builders learned to use to the fullest advantage the stone which the rock of this county affords. Hastings has plenty of grantle and it is fitting that people of Hastings should show the way to those who are to build. Rev. D. A. Cullinane and his parishioners have in this selection of stone done this county a favor in attracting attention to the beauty and durability of the hard rocks of Hastings.

A HEALTHY SIGN

People of all religious denominations will join in felicitating the people of St. Edmund's, Stoco, Catholic congregation on the opening of their newly-finished church. Growth of such churches serving a wide area is a healthy sign that the community. is thirking of more than material things. Where a church spire or tower rears itself above the surroundings is evidence of a

Stoco now has one of the finest churches in rural Ontario. The loyalty of the congregation in this widely extended parish needs no praise, for its works show its

NATIONAL PARKS

Montreal Gazette makes reference to the growing value of the national parks

"Besides their economic utility as a means of attracting tourist travel, the national parks are of appreciable value as helping to cultivate an appreciation of the autiful in nature, as stirring in the minds of the people a pride of country and thereby contributing to the betterment of national life and character. Working in association with the National Parks Branch of the Department of the Interior is the Historic Sites and Monuments Board of Canada, which has expended, and continues to expend, much energy, and with excellent results, in acquiring and with excellent results, in acquiring and preserving and marking historic sites of national importance, and in commemorating the public services of outstanding has reviewed the status of over 800 sites. From among these 221 have been selected to date as worthy of national commemoration. Control of 184 of these has been acquired by the National Parks Branch, and 129 memorials have already been and 129 memorials have already been erected.

70U don't have to tolerate the apotty performance of show-off gasolenes. You don't have to buy anti-knock performance at the sacrifice of quick starting. You don't have to put up with sluggish power to take a hill in high, without knocking.

We say "you don't have to" because Koolmotor, the thoroughbred of gasolenes, gives you 11-point superiority in one outstanding motor fuel.

Every benefit that a good gasolene should have is found in Koolmotor. No one phase of performance is sacrificed to obtain a showy effect in another. Koolmotor is good throughout-it has passed 11 of the most rigid laboratory tests ever given any gasolene-tests for starting, acceleration, anti-knock, power, vapor pressure, odor, corrosion, sulphur, gum content, distillation, and mileage.

Don't tolerate spotty performance. Insist on 100% value for every dollar you spend-demand Koolmotor, the gas that combines the best points of all motor fuels in one!

ONTARIO INTELLIGENCER

THE WARNING LIGHT

The Ontario Intelligencer has been ested by a number of citizens to urge that the traffic signal be regulated to allow a showing of yellow light as a warning of the change of traffic. One of the basons for the three lights advanced is that the pedeertran is at the mercy of cars for immediately the light changes from red to green traffic moves. A pedeetrian is likely to be caught directly in front of a car and while it as the duty of the motorist to see that he does not injure any walker, there is always the danger of accident. Another reason is that which contains the contains of the contains the c low a showing of yellow light as a warn-

n at such a rate within the law as far as seed is concerned which will make mo-entary application of the brakes likely cause skidding with damage to properly of boss bly to occupants of the car.

The third reason is that traffic is now

fighter than it was some weeks ago and that expedition of traffic is not so press-ing at this season as it is in the summer

Sidding caused by the application of brakes when the light comes "red" may bause serious results.

A momentary flash of yellow light, say for four or five seconds would remove the first of the second would remove the first say well-known fact that local motorists are developing more ability to get away on the flash of the light, that itself meaning greater expedition of traffic. It is a well-known that it is to be signal should be taken at once.

HOW IT HAPPENS IN TWO CITIES

HOW IT HAPPENS IN TWO CITIES
People in Philadelphia must be very
like pedestrians in Belleville. That city
has taken to the decoration of its corner
walk crossings with painted lines in the
hope that walkers may be induced to stop
the people of the people of the people of the
hope that walkers may be induced to stop
the right. The crosswalk featured by a
diagonal line through the middle giving a
funnel effect on both sides and wider entrances to the two lanes. Even yet the
sixty per cent. of the people walk as they
sixty per cent. of the people walk as they
fedestrians walked within the white lines,
independence or contrarines caused the
pest to denounce the lines as "adjuncts to
an already overcomplicated civilization."

On Belleville streets the condition has
a own peculiarities. Jay-walking is still
light at the main intersection. But their
action on the aidewalks is remarkable. On
a busy night, say of Saturday, it is quite
impossible to walk the length of Front
Street without ligrateging scores of times
and in the middle of the walks. He who
would keep to the right from principle at
last gives up in desperation and tries to
bore a way through, dodging wherever he
thinks he sees an opening to get through,
the person of the person of the person of the way of traffic. It is a case of jam
and push.

In the last analysis the troubles orig-

and push.

In the last analysis the troubles originates in the narrow Front Street walks, and the compression of nearly all the busi-ness at such times into the Front Street

There is no sign of relief from this imming condition, unless the people are kept moving.

EATERS OF EARTH

"A curious and carefully studied work on geophagy has just been published by the Field Museum of Natural History in Chicago," says the New York Times. "The author, Berthold Lauffer, is curator of the department of anthropology and has consolidated and added to the knowledge consolidated and added to the knowledge of more than a score of earlier writers on the subject. Some of the books listed in in bibliography are concerned entirely with edible kinds of earth and the people using them. Others mention the subject licidentally.

"One can readily understand that taking her to some place orimitive man tasted everything he could A.—No; but she she had a pleasant time.

his palate and satisfied his hunger he con-tinued to eat. Some kinds of clay re commended themselves on both dounts. commended themselves on both dounts. The odor, softness and plasticity of certain clays pleased him. There is no nutriment in them, but they gave him a sensation of fullness which he liked. Somepation of the control of the control

it is such that make geophagy printings on the control of the control of a custom which is highly repulsive to most minds. One writer sacribes it to the need of sait in the human system, but analysis of edible clays shows little or no sait. Another says it is que to the mechanical effect it seemed to have to the mechanical effect it seemed to have to the control of the control o tation. Indians and half-savage tribes say that clay is good for them. The au-thor of the treatise knew a man, an Am-erican, who took two teaspoonsful of white sand twice a day to keep him in good condition. He died of sarcoma of white sand twice a day to keep him in good condition — He died of sarcoma of the intestine, but it is not known if the dis-esse was caused by his habit. Before the problem can be solved, biochemists and physiologists must make compastive stud-ies of the subject for all parts of the world. When people voluntarily eat dirt, there must be a reason for it."

An angel of the Lord appeared;
A bush, aflame with fire, his dress,
When Moses heard the news he said: "I must gaze on this sight profound"; Then spake a voice proclaiming that The neighborhood was holy ground.

So when smid Laurentian heights

So when amid Laurentian heights
The maples flame in beauty there,
And color blazes to the sky
With glory glowing everywhere—
From some lone tree that shines with fire
One should not feel surprise profound
At angel form, or voice divine,
Proclaiming it as holy ground.

For to the heart they speak in tones Of beauty all the autumn time: When crimson, purple, fiery red, Show color in its gorgeous prime: Then our Laurentians deck themselves With radiance of unearthyl spheres. If God is Glory, Beauty, Light— Then God here certainly spheres.

Then God here certainly appears.

THE PRICE JONES PAYS

Those, who would like to keep up not so much with the Joneses as with the Jonese's Bobby Jones, have to learn some thing of the drawbacks of greatness. Every golfer envies Robert Tyre Jones, lewyer, four times maing golf champion it 1880. Everything abused, and he is the vicinity of the price o iona, he gets off bad shots, those are things to worry about. The duffer can go out on a Saturday afternoon with his mates in foursome and nobody pays any attention to them. COAL MINES

An exchange is hopeful that some day a real-coal mine may be discovered in Ontario. It refers to the story of the city engineering department's employees at Bort Arbur cutting into a seam of coal walls excavating for a sewer. There have it was been various reports of finds, all to be contradicted by survey. Cobalt sil-

Somewhere blue waves wash sands afar,
And ships sail out to sea;
The twilight haze; the evening star
Bring blest tranquility.

Somewhere across the city's ways
Ring revelry and mirth,
Lights flash their flying rainbow roys Above the laughing earth.

There is no joyous music here,

No dance, no merriment,
Nor does the young moon, slim and clear,
Glide down the firmament.

A dearth of light and loveliness

Marks all the scenes I see;
Here one must meet with strife and stress,
With care and poverty.

And, yet I never long to roam
To realms of mirth and song;
For bliss I only ask this home,

To Give Canadians Work, Buy Canadian Products!

To-day the opportunity is yours to render your country a service of inestimable value. And you can do it absolutely without cost to yourself into or money. Exercise a little intalligent discrimination in your daily buying, and the thing is done!

As you know, thousands upon thousands of your fallow Canadians are out of work. Unsemployment, always a serious problem when it occurs, is more serious than ever just now, not only because it has lasted so long and been so widespread, but because of the unusually large numbers who, by reson of it, are being forced to suffer real hardsips.

And it is all so unnecessary, so easily preventable

DRAWING COMPETITIONS

DRAWING COMPETITIONS

Drawing-competitions have proven successful features at county fairs, appealing as much as a horse race to men and probably more so to women, for which there may be the reason that few farmers own race horses while every farmer owns horses, and knows the value of animals and is familiar with the use of

nals and is sale stone boat.
Such contests naturally appeal to the Such contests naturally appeal to the man who lives on the farm. He has all his life been brought into contact with horses. He knows what a team can pull and many can safely guess the relative "horse power" of rival teams.

There is the added feature that this is more or less of a novelty at fairs but it is one which promises to become a permanent attraction.

This all the object of the property of the contests have attracted hundreds upon hundreds of visitors.

This all shows that there is life in

hundreds of visitors.

This all shows that there is life in the rural fair which can find new means within agriculture to appeal-to city and farm dweller. The stoneboat is no new discovery, indeed it is so old that many at the past since farms have been cleared. Herein lies it sappeal to the farmer, it is the thing with which he has been associated since his earliest days. To him a race horse is a fine animal but more important agent because of the creat part which the ance because of the great part which the heavy draught breeds, the Clydes and Percherons, play in the life of the farm.

THE HEART OF A CHILD By Aline Michaelia

The heart of a child is a garden, bright With sunlight and sweet with flowers, Through golden summer hours

Nothing but blossoms and beauty there.
Where faith like the sunlight falls.
And joy adrift on the perfumed air
Within the garden's walls.

The heart of a child is a realm apart No guile goes there, no craft or art, But trust and love and mirth.

Ah, what would you give for the heart of

a child Monarch or millionaire? For well of being undefiled, And with never a doubt or care?

official interference.

Today as we read a wor kof poetry or fiction, we are often puzzled by its cruelty, its lack of finer feeling. Not of that class was the work of Virgil, who had the universal heart which appreciates pain and troubles. To read Virgil makes us more sympathetic and appreciative of other ages of history.

COURSE OF AVIATION

What course lighter than air machine What course lighter than air macnines will follow sunce the disaster to the R-101 will be interesting to watch. The official inquiry will doubtless have much to say in regard to this when the cause of the disaster is probed. Meanwhile the German-people show no sign of falling away from

people snow no sign of faring army the Zeppelin idea.

These great ships will continue to be built, but whatever the trend, it is safe to prophesy that the aviation developments will continue with greater conquests of the will continue with greater conquests of the air. Whether there was some shortcorn-ing in construction of the lost airship the probe will doubtless reveal and if there has been, engineers will be certain to remedy to remedy this in future construction. Flying itself in the heavier-than-air ma-chines will continue as they go foward despite crashes

FROM BAY TO BAY

Linking of Belleville with Hudson Bay by the construction of a short line of railway which will connect the Bay of Quinte to the other greater bay is a project which is worth considering. These are the days when links are being forged and it is pleasant to contemplate that the linking may be north and south in Canada as well as eask and west. In the construction ing may be north and south in Canada as, well as east and west. In the construction of highways, the main roads have been built and now the crossroads are being constructed. So it may and should be with the railways, especially as only a short link needs to be added.

OPTIMISM

Prosperity Week is at hand, support-

Prosperity Week is at nand, supported by manufacturers, merchants, the mayor and council, and citizens generally.

The world has been hearing a great deal of talk about hard times and this has had a tendency to destroy credit and opnad a tendency to destroy credit and op-timism. There is nothing to be despon-dent about in present conditions, the world is not going to end. This is probably just a breathing spell before the most optim-istic outlook stands revealed in fact.

sitic outlook clands revealed in fact.
This part of Ontario has been fortunate. Farming was hard his last year but the canneries have helped the situation immensely and the fact that our farmers do not grow much wheat for sale has proven another advantage in spite of the downward trend of wheat prices.
Canadians must have faith in the future. Their faith will stimulate others to see wisely, and with open eyes, not through obscurred glasses.

see wisely, and with open eyes, not through obscured glasses. President Beatty, of the C.P.R., see nothing but prosperity ahead for the Dominion. To draw public attention to the Markey of the C.P.R. and the optimistic of which Canadians should be optimist of the purpose of Prosperity Week.

BROWN OCTOBER SYMBOLS

BROWN OCTOBER SYMBOLS
Grapes and amber October cider,
warm days and cool night seem to be the
very ipsel of automass specially at these
great festivals, the fair specially at these
great festivals, the fair specially at the
set of the province. Nothing so seems to
symbolize the season as the sweet smelling
cider and the rich coloring of the grapes
which in their greens and blues and browns
symbolize the changing leaves of the trees,
the evergreens' verdure, the rich fruitage
of the orchards and the deeply initial
fields with their pumpxins, squashes, tomajoes, green and ripe, and dry corn
staxs.

The grape and the cider have their

staxs.

The grape and the cider have their place in the song of harvest, as have those fruits and vegetable which lie in the fields and the cellars of the countryside.

WHEN SONG WELLS UP

By Aline Michaelis
The song that soars like a bird's betrays
The singer's heart,
Though there be little of depth in its ways

And less of art.

When song wells up from the lips of a child Bird-gay, bird-free, Life's rapture rings there, undefiled, Earth's sudden glee.

It is as though a door swung out On vista blue, As though joy's tides in a lyric shout Came flooding through.

It is as though the sound revealed Lost dreams again;
As if, with crystal noted, it healed
An old, old pain.

So ever the simplest songs are most sweet

In all men's ears,
And the rhythm of their lilting lines will beat

WATCH YOUR STEP

DURING THE Forty-Nine gold rush to California, thousands of gold-hunters pushed their ponies over the Santa Fe trail, with a far-away look in their eyes and a great hope in their hearts. On one place in the narrow trail in California lay some brownish lumps in the road which day after day were kicked under the heels of the hard-pushed ponies. NINDS OF COFFEE CRANKS-

WHICH IS YOUR HUSBAND?

A recent test proved it! Eighty-seven per cent of men are "coffee cranks"—and there are five distinct types of "coffee cranks."

Months ago we set ourselves the task of blending a coffee which would satisfy all these types.

The result is Blue Ribbon Coffee-the first real "man's coffee" ever made. The kind of coffee men have always wanted. Fragrant, stronger, more stimulating than anything they ever had before.

Due to the lowered costs of flour, and in recog-nition of the necessity for a general reduction in the cost of living, we are pleased to announce that effec-tive immediately, the price of our MILK-MAD BREAD is reduced to 18c for the full three-pound loaf. It is perhaps unnecessary for this old established Bakery to say that this will involve no loss of excellence in our product.

Editor, Efficiency Magazine, London, England The San Francisco earthquake, if I may use that forbidden word, cured hundreds of cripples.

They jumped up and ran for their lives.

They weren't as badly crippled as they thought they were. They ddn't know that they could run until their houses began to shake.

The Good Books too, tells the tary of cripple whose weakness was more in his min. than in his legs. The Master said to him: "Rise, take up thy He rose and walked and carried hed and walk." his hed

So, here is the thought that I would like to send

out to the business men of America:

"You are depressed. You think you are crippled. You are afraid of the future. You are full of fears.

"You have the greatest home market in the world and the largest corporations that the world has ever

"You are ruled more by ideas and less by tradition than any other people in the world. You have usually done what you thought you could do.

"How can it be possible that a progressive nation of 120,000,000 people can be wreeked by the speculations of a little handful of foots in Wall St.".

"The prices that were forced too high had to come down. To-day all the prices are too low. There is now a golden opportunity for every man who has eyes to see it.

"Dollars are now being sold for 30 cents. Practically every security in the United States is now being sold at less than its value."

CANADA'S GREATEST YEAR

CANADA'S GREATEST YEAR
Canada is the last great land of opportunity, a land of buried treasure and
untold wealth of natural resources as yet
undeveloped. Other nations have had their
day of glorious growth and development,
now their evening approaches. Canada
is at the dawn of a destiny, the morning
of the greatest era in her. history according to all signs and portents and the surveys of an event of the property of the propromerry is here. Conditions are farpromerry is here. Conditions are far-

veys of experts in the various departments of nation building. Prosperity is here, conditions are fan-prosperity is here, conditions are fan-ever had, it only needs the high courage and confidence which has always marked Canadians, the will to make things pros-perous and dissolve all pessimism in the glorious sun of optimism.

Twenty million dollars wil be spent by the Dominion Government in public works, the provinces will add to this sun and the numberpalities will do their share, riches in agriculture, timber and miner-als, all contributing to general prospe-rity-let's all get together and make it as big as possible jas possib

by as possible.

Belleville business men will celebrate Prosperity Weck with joy and vigor as part of Canada's nation-wide declaration to the world that Canada is prosperous to the world that Canada is prosperous and not affected by the flurries of Wall Street, the business section will be gaily decorated, the stores will be filled with fine goods at reasonable prices and the windows will be wery interesting. Merchants will demonstrate that the buying value of the foldar is greater than at any time. This is Canada's greatest year of prosperity and nothing can stop her victorious march to greater prosperity.

THE WAY OF VAUDEVILLE

Is the vaudeville to go? Toronto Telegram thinks that this class of entertainment is on the verge of passing into the limbo of forgotten things. Vaudeville, it 243%, in its varied program gave entertainment which the legitimate theater could not give because the latter demanded certain mental activity. Vaudeville meant valvation. ville meant relaxation

But the blow to the solar plexus of vaudeville came with the movies and the second smash came with the talking picture. Vaudeville has been put on with movies and sound pictures and according to the Telegram often a poor picture was saved by the vaudeville bill.

was saved by the vaudeville bill.

The paper sees a real menace to the art of vaudeville. How is the budding genius to get his start? The vaudeville acts will be played before the camera in a studio. The life of the vaudeville troups studio. The life of the vaudeville troups of the camera in a studio. The life of the valueville troups of the camera in a studio of the life of the valueville of the life of the valueville of the life of the value of the life of

But there is nope, as the Telegram glimpses the future. "It would be rash to say that the tipzelled glories of vaude-ville are forever gone. Time may work a new revolution."

THE EXHIBITOR

THE EXHIBITOR

Much is owing to the exhibitors at fall fairs. Year after year they come at personal trouble to show the come and stock and to help create and maintain the high standard of agricultural life as indicated in the fairs. Prize lists ought to be worth while to compensate in a small measure for the pains they take to make and preserve the fair.

Make and preserve the fairs they there is a maintain the provide more than a maple entertainment.

A word of praise is due those who exhibit and the owners of race horses.

DECREPITUDE

By Jerry Benedict No matter if you live to be
A hundred weary Winters.old,
With great granchildren on your knee,
And long white whisters that can hold;
No matter if ne shelle dreams
You flee a world grown drab and dirty,
You'll never know how old it seems
To be a puglist at thirty.

Old age for woman now has shifted To well beyond the former limit. She has her face re-re-relited And strives to keep her figure slim. It Is only when she's bent and slow She yields the game and fails to strive; But here is age few wamen know A movie queen at thirty-five.

Parrots, they say, wax full of years And tortoises attain great ages,

Quoting Mr. Ford's statements is al-ways a good thing, even though it is ac-companied with considerable pain and inconvenience," and that "the country is far better off today that it was a year ago, when the people were fairly crazy with stock-speculation fever," this weekly also increase of 1.1-2 ber cent, in the sales of increase of 1.1-2 per cent. in the sales of life insurance for the first seven months of the year is wonderfully encouraging."

HOW OLD DO ANIMALS GET?

An old German maxim says: "A wren lives three years, a dog three times the age of the wren, a horse three times the age of the wren, a noise three times the age of the dog, a man three times the age of the horse—or eighty-one years. The donkey lives three times the age of man, the white brant three times the age of the donkey, the crow three times the age of the brant, the deer three times the age of the crow, the oak-tree three times the age of the deer"—according to which calcula-tion the deer would live to be more than six thousand years old and the oak about twenty_thousand.

Premier Bennett Speaks

Hon R. R. Bennett. Premier of Canada, has endorsed "Prosperity Week", and in a special sound film presentation now being shown in theatres all over Canada voices his confidence in Canada's prosperity, present and prospective, as May I pay my tribute of esteem and regard

to the inventor of this wonderful talking machine to the inventor or this wonderful taiking machine which affords me an opportunity to convey a mes-sage to the people of Canada. Prospectiy is just around the corner and I can only urge you to hasten its arrival by purchasing Canadian products. I can think of no better way

of turning the wheels of industry, thereby stimulating the market for the products of the farms and our natural resources. In payment we can look forward to a future which is rightfully due a young and vigorous nation.

New Ways of Serving Old Favorites

Quickly, prepared and served with jelly or syrup

Of course your family likes pancakes But wait till nearly every one does. they've tasted Aunt Jemima's pancakes rolled with jelly, or waffles or muffins served with syrup. They make wonderful desserts or a new, easily prepared supper

Aunt Jemima's pancakes were famous throughout the Old South. The identical ingredients, ready mixed, come to you today in Aunt Jemima Pancake Flour. Simply stir with water or milk, and cook over a moderate fire. In a few moments you have the tender delicious pancakes that delighted those southern epicures.

For buckwheats use Aunt Jemima prepared Buckwheat Flour. It contains just enough choice buckwheat flour to give that wonderful buckwheat tang, and is just as easily prepared. Keep both kinds of . Aunt Jemima ready for

Angora Rabbits Shipped to Japs

Victoria, B.C., — Angora rabbits bred and raised in British Columbia are finding a ready and lucrative market in Jajah and large numbers of them are being shipped on almost corry out-going atemathly for the Far East. One agency alone has a contract to supply a thousand rabbits a press for three years to the Japanese market.

market.

In Japan they raise rabbits for wool and not for meat, it is explained by J. Kumaghapa, manager of the Consolidated Parmera' Co-Operative Association, who has been supervising the shipments from British Ookumbia.

We plan to furnish every farmer in Japan with at least five rabbits," and Mr. Kumghapa..."We already have meabled the machinery for handing the wool in all manufacturing stages." The Japanese inoporters find that Canadian rabbits are superior to those raised sic the western United States, which were previously a source of supply. The cooler summers tend to produce hardler stock and better conditioned fur, and as a result Japan has turned to British Columbia for the foundation of its rabbit industry.

What MORE can we do to convince you?

> COR the past twenty years we have been tailoring Tip Top Clothes. In that time we have sold more clothing direct to the customer than any other one-price organization in the world. As a result, the name Tip Top is one of the best known in the clothing world.

When we made our very first garment; we honestly believed it to be unusual value at its price. At that time it was a radical improvement upon anything obtainable for the money. But we were not satisfied. Each year we obtained finer fabrics-improved tailoring methods-widened variety-until today we believe Tip Top Clothes represent without question the outstanding value in Canada.

To support this statement, what do we offer the buyer? Unrestricted choice of several hundred of the season's finest and smartest woollens-any style of suit, coat. tuxedo, topcoat at the same price-personal tailoring to individual measure by thoroughly skilled craftsmen-all at \$24. Plus the most convincing proof we know of-an absolute guarantee of satisfaction or your money back without question!

It is our honest belief that if every man in Canada realized how fine these clothes really are, and how great the saving in cost, the tremendous facilities of Tip Top Tailors would be taxed to the utmost to take care of greatly increased demand.

What more can we do or say to convince you? Go to your nearest Tip Top store and verify these statements by your own good judgment.

KOOLMOTO the <u>original</u>

WHEN we say "test by test, mile by mile, Koolmotor is the finest gasolene you can buy" -we mean it-it's a fact-we've proved it!

In the laboratory this thoroughbred among motor fuels must pass eleven of the most rigid quality tests ever applied to any gasolene -tests for starting, acceleration, anti-knock, power, vapor pressure, odor, corrosion, sulphur, gum content, distillation, and mileage.

Should a single gallon ever fail to meet any one of these eleven rigid tests, it is never offered for your use. You can bet on the fact that every gallon of Koolmotor Gasolene pumped from a green and white pump is full of unchallenge able service and quality-test by test, mile by mile

Why be satisfied with a gasolene whose benefits end with a showy effect in one phase of performance? Insist on Koolmotor-the gas that gives perfect performance from the time you start your car until your foot calls a halt to your drive.

ONE HUNDRED MILLION LOAN

It was encouraging news to Canadians to find the one hundred million dollar four per cent. thirty-year loan taken so well, so that it was immediately oversub-scribed. Canadians individually are now going to have an opportunity to invest in this loan and there is likely to be a heavy demand for the issue as bonds are in much demand. seats. A Jersey position, oned, a pels a menwi

FIRE PREVENTION

FIRE PREVENTION

Belleville fire department is doing its utmost to bring to the people a realization of the menace which lurks in fire. Fires in dwellings in the Dominion are on the increase, according to official report. Such a report are to the considered and there is the additional risk to life inferred in such a report. Canada loses forty million dollars worth of insurable property every year and dwellings count for a good share of this loss.

Exercise of caution and care is essential to prevention. But then people ought to think preventively.

JOY'S DWELLING

By Aline Michaelis

Joy dwells, I know,
In the king's palace,
Like wine aglow
In a golden chalice.

Joy goes along Where the king wanders, Its notes like song That the skylark squanders.

Joy does not care For barren places, For meagre fare And poor men's faces.

Yet, how strange! I heard As I came hither Such rapture stirred

As naught can wither. In a glad tune
From a poor hut winging,
As sweet as June—

A child's voice singing!

And yet I saw,
Where the sunlight dances,
Joy without flaw
In a gypsy's glances!

Where the sunlight dances, Joy without flaw In a gypsy's glances!

In a gypsy's glances!

JAS. A. COKERS

It was raining cats and dogs and she knew Janet and Fred and the crowd would be start-ing in half an hour or so. By the time the got there the roads would be just plain mud-and they certainly couldn't have their corn past. It was no day to visit a farm. Everybody would be grumpy - especially at her.

Then she thought of the telephone. Two minutes later she was talking with Janes and the situation was saved. They would keep the corn roast for Saturday and come early for a real day of it.

So there were no bad tempers and hard words and everybody said what a thoughtful girl, she was — all for a call that cost 30 cents.

In emergencies nothing can equal the telephone. Out-of-town calls are so easy to make and so dependable. And they are quicker now than ever before.

AGE'S CREED Frankford Fair had this year what the greates of fairs did not have—a gable-sting of patriarchal figures in the district life, guests of the agricultural society. John Bruyea, aged 101, Maix Keho, 98, James Jordan, 88, and John Montgomery, 86, 89 jolly a crew of old men, one could hardly expect to find anywhere, it seems So Fresident D. R. Veterans, in experience can tell the young things about life the other words of the period of the young things about life the wind go of the latest inventions, fall to see. But the patriarchal beings who live on the summits of life, sun-crowned human gods, whose word is as say aphorism on life, do see and know.

From the life of these cloters comes and the period of the p

bodimnt of their creed or saminy in minus and body.

One thing stands out clearly in the newspaperman's impression of that event. It was the fact that these men were no misanthropes, who could shut themselves from their kind or sleep like bears in the wintertime. These men greet their fel-lowmen with a hearty handshake, a smile and not one word alone but a whole flow of eloquence, making themselves glad and cheering those who meet them.

It was good to meet these four "old lads", all of whom had followed the furrow of the field and of life and have yet far to go, it is hoped, before reaching the end of the furrow.

A SONG OF AGE

What is it that makes a lifetime?
To hold the manly strength
Of youth's rejoicing strife-time
Till it reaches the Psalmist length? Is it worth the strain of the long years

pain?
To keep the body alive?
Would you rather be old at eighty Or young at thirty-five?

The fairest tree in the orchard
That makes the Maytime bright,
By pest and the tempest tortured,
May droop with early blight,
And many a flame of a promising name

name
That men thought might survive
To light the world at eighty,
Dies down at thirty-five.

But if still the heart heat steadily.

What you really need is a new roof · patching is wasteful

WHEN your roof begins to leak it is really worn out. You may patch it, but to do so is only an extravagant way of postponing the purchase of that new roof you really need.

You will end your roofing troubles at the lor cost per year by re-roofing with colourful, proof and durable Johns-Manville Shingles If you select J-M Asbestos Shingles you will end roofing trouble forever—because these roofs will still be turning back fire and weather when your children's children have grown to maturity.

Or, at lower cost, you may buy many years of perfect roof protection, unmarred by repair expense, in J-M Asphalt Shingles.

capenie, in J-m. Aspault Smiglet.—
In both types of J-M Rooft you are offered a rare beauty in line and colour that is not obtainable in most other roofings. Architects who are expert in colour-decoration worked out these lovely blends and harmonies to give distinctive charm to every type of house.

See a roofing material or lumber dealer now, Look at these beautiful J-M Shingles—and decide to give your roof their perfect, durable protec-tion against fire and weather.

Protect Your Breadwinner's Job!

Il so, unless you happen to be among the fortunate ones who have misans of their own, you are dependent upon some one—hubsand, father, you must have to pay the groot, the butcher, the baker, the millions, the druggest, the dry foods merchant, and all the other dealers for the things you have to order from day to day.

It would be a terrible thing, wouldn't it, if next week your house allow-ance were auddenly to be shut off! Yet that is what might happen if your breadwinner were unexpectedly to lose his business, or his job!

Some of them are probably growing or making things of the kind you have to order from day to day. So long as such things find a buyer, their jobs are seque. But if they should fail to find a buyer, for no better reason perhaps than that you and other women thoughteely allow oyurasires to be sold articles that have been imported, they less their jobs, in which evint your breadwinner losse them as customers. And naturally you den't want that to happen!

A BIT OF VERSE EVERY DAY

Every day the Toronto Globe pub-Every day the Toronto Globe publishes a short gem or two of verse, the combined effect of which year after year must be a powerful agency for refinement. Some say the world does not care for verse, today, except the kind of cheaper and triter philososphy, but the Globe believes that giving poetry in small measures will have its result. The Montreal Star is another paper which publishes verse of power and merit.

Those who cultivate the arts and bear the property of the contract of the cont

Those who cultivate the arts and love poetry must realize how much good is being done by these newspapers in creating a finer spirit of literary appreciation and in drawing saide the curtain from the eterin drawing aside the curtain from the ever-nal verities which are often so obscured in the rough-and-tumble of everyday life. The Globe and The Star are doing art and

a service.
The Picton Times is another pape which year in and year out, week in and
week out carries a poem by Mrs. Helen B.
Anderson of Consecon. Mrs. Anderson's verse would illuminate any paper,
and the real marvel is the even high tenor

of her work.

I the Times is making no-mistake in publishing verse of this class.

All these papers believe that even if thousands pass and do not read poetry, some do stop and read and these are the leaven. To create and mould this leaven is the worthwhile work of the Clobe. The leaven. To create and mount this leaven is the work of the Globe, The Montreal Star and the Picton Times. If readers of the Ontario Intelligence

are from time to time of verse of merit in the newspaper it is there because it is believed to be a leaven for good.

For the bravest of spirits have often
Half lost in the race that they ran,
For a kind word life's hardship to soften,
Then say a kind word when you can.

Each one of us owns to some failing, Though some may have more than the rest, But there's no use in heedlessly railing Against those who are trying their best. For remember a word spoke unfeeling, May blight every effort and plan, Where a kind word would help in reliev-

Then say a kind word when you can.

Then say a kind word, oh wherever 'Twill make the heart cheerful and glad. But never forget it, oh never, To the one who is hopeless and sad, For there's no word so easy in saying,
Then begin if you haven't begun,
And never in life be delaying,
To say a kind word when you can.

Sunlight, Engiand.

SATURDAY was a swell, elegant day, bright, sunny, and altogether delightful. Beautilla streets were thronged with sightless of the sunny, and sunder the sight elegant the sunder folk who spent most of the time visiting each other. Among the oddities of the day observed by the currier were three straw hats on three optimists who go not by the calendar but the weather, a fur hat on a pessimist who read in the almanacture of the sunder the s that there would be snow flurries. How-ever, he did not have the ear laps down so was evidently not apprehensive of any im-mediate bluzzard. Then there were a few partial properties of the properties of the beautiful new fall has, mostly fedoras, with a thin sprinkling of derbies. The brightness of the day was reflected in the faces of the out-of-door folk who just beamed good nature all over and created All's well with the code in His Heaven, All's well with the world.

OVER TWO AND A HALF MILLION DOLLARS will come into Belleville dis-trict this season from the cheese industry, another evidence of prosperity.

OVER ONE HUNDRED DOLLARS per acre realized from peas, tomato and corn crop by progressive farmers in this district spells prosperity if anything does.

Some Changes in Long Distance Telephone Rates

We have filed with the Board of Railway Commissioners for Canada, effective Octobes 1st, a schedule of rate for long Octobes 1st, a schedule of rate for long of the first of the first of the control of the first of the changes in chiring rates for distances from 30 to 128 miles. The energial effect of these changes is to bring energial effect of these changes in to bring schedule into accord with the standard rate schedule into accord with the standard rate schedule used for long distance calls to points in Canada outside Ontario and Quebec and to points in the United States.

Quebec and to points in the united States.

While the changes in the basic station-to-station day time rates for the distances mentioned are in no case more than 5 cents on a three-minute talk, they apply to some important points frequently called from Belleville embodying, in some cases, an increase and in other cases a decrease.

an increase and in other cases a decrease. For example: The rate for station-ostation calls to such points as Ardendale, Bath, Harnwamith, Hastings, Kingston, Lakefield, Peterboro, Port Hope, Wolfe Island, is increased ends. Calls to Barrie, Brampton, Morrisburg, Newmarket, Orilla, Ottawa, Pembroke, Port Credit, Poronto, and Winchester will be 5 cents

To such other important centres as Brighton, Brockville, Campbellford Co-hourg, Colborne, Deseronto, Hamilton, Lindsay, Madoc, Montreal, Napanee, Os-awa, Ficton, Smiths Falls, no rate change is proposed.

This Company's tariffs are open to public inspection. Long Distance toll tariffs may be seen on application to our Manager at the toll centre of any locality.

DESCRIPTION OF THE PROPERTY OF

The Truth About Motor Oil

SOME Oil Companies are seeking to increase sales of motor oils by claiming greater mileage.

Most motor cars, regardless of the type of motor oil used, should have their crank cases drained and oil renewed every 500 miles. Some types of automobiles, however, which are equipped with certain oil filters or purifiers and crank case ventilators, can safely run 3,000 miles on one filling of motor oil. The manufacturer of your car specifies how often the oil should be changed and to get the best results you should follow the manufacturer's advice.

Red Indian Motor Oil can safely be used for mileages of from 500 to 3,000 miles when these mileages are recommended by the automobile manufacturer. Regardless of the fact that it sells at ordinary prices, it will give you not only perfect lubrication, but better lubrication than other oils sold at a premium price.

Red Indian Motor Oil is a superior motor oil which, besides having the highest lubricating qualities, has the following special advantages:

1. MINIMUM CARBON DEPOSIT Preventing loss of power through accumulation of carbon in the cylinders.

3. FREEDOM FROM WAX Keeping valves from sticking and oil system from clogging. 2. HEAT RESISTING FILM

Does not break down or use up under high speeds.

4. LOW POUR TEST Withstanding climatic temperature changes effectively.

When you change your oil ... change to Red Indian Motor Oil.

Many safe reading and enjoying Stevenson. Conpeople, commented the instructor. Many size reading and enjoying Stevenson, Conrild, Kipling, Galsworthy, Wells, J. B. Priesily and in two instances students said that Dickens's Pickwick Papers was their fayorite novel. Most of them had not even read certain much-advertised stories of college life in which 'flaming youth' in-dialges itself in a prolonged orgy of indis-

cretions.

"Any careful observer of the type of honest writing and thinking being done today by many undergraduates, will give indorsement to the statement that the wheel of smart skepticism and the 'new intellect-ual freedom' has come full circle, and that the year 1930 has seen the return of a more

ual freedom' has come full circle, and that the year 1390 has seen the return of a more wholesome regard for old-time standards of decency, sorbiety, discipline and faith. Magazine, Mrs. LaMar Warrick gives another striking proof of a change of front on the part of the younger generation. In her article entitled 'Farweell to Sophistication' she pertinently remarks: 'Yesterdar's youth, disputed to thought of the younger generation of beauty, threw the whole lot overboard. Today's youth, disputed both with traditional standards and with the chaotic results which have been achieved by throwing overboard those standards, is locking for a re-statement of morality, of "The fire of flaming youth has burned so brightly that it has left behind the ashes of its post-war adventures, and a purer flame of enthusiasm is now lighting a new path.

DOOM OF THE STREET CAR

Take Care of Your Eves and They will Take Care of You

Either hackneyed expression Maybel But as you think into it you will, 't least partly, realize to what a very great extent your vision dominates your existence. Whatever your occupation, or your pastine you may be, avery little experimenting on your part will convince you as to how utterly dependent we are upon our eyes.

Just a little extended thought will surely suggest the wisdom of knowing that your eyes are not being overtaxed, or of obtaining the assistance they need to obviate strain and its resultant inefficiency and dis-comfort.

ALL the martyrs are not dead and plenty of heroes are without medals. Think, for example, of the many uncomplaining men who do not get good coffee in their homes.

THE CHE LAND

We call such men "coffee cranks." They seldom criticize-the fact remains they are not satisfied.

Blue Ribbon Coffee was made for just such "coffee cranks"-not as the experts say it

should be made, but according to the tastes of thousands of husbands, fathers, sons and brothers. It is the first "man's coffee" ever blended. Indes-cribably zestful. Surpassingly richand fragrant. And packed in vacuum-sealed tins to keep its flavor ever-fresh.

This coffee is blended by Canadians to suit Canadian taste and the Canadian method of making coffee. Serve your husband Blue Ribbon without telling him the kind of coffee it is.

The real truth about motor oil!

You cannot get a Super-Motor Oil and a Super-Gasoline from the same crude

MOTOR OIL and gasoline have a common parent ... the same crude oil. In the process of manufacture one must come second to the other. Either the oil will receive first consideration ... or the gasoline.

When the oil plays second fiddle, you often pay the price. You can't get a super-motor oil and a super-gasoline from the same crude!

C. C. Wakefield & Company . . . Producers of CASTROL .. make no gasoline. Stranger still, they own no oil wells. They search the world for the finest oil, mineral and castor. These are purchased solely for their lubricating qualities.

In order to maintain the high grade of ingredients in Castrol, C. C. Wakefield & Company cannot afford to be tied to one oil field only.

When you put Castrol in your crank-case, your engine is lubricated by the finest motor oil mbney can buy. Castrol is recommended by Rolls Royce (Eng.) and over 230 leading motor car manufacturers.

\ead\ as if by Magic; and Wonderfully Good

If Aladdin, by rubbing his magic lamp, conjured up some tempt-ing repast, it couldn't be ready much sooner than you can pre-pare delicious pancakes with Aunt Jemima Pancake Flour.

You simply stir this ready-mixed flour with equal quanti-ties of milk or water and cook on a moderate fire. Presto! You have light, flavoury pancakes that just melt in your mouth.

Aunt Jemima's recipe was famous in the heyday of the Old South. Her flour that comes to you today is just what she used then, mixed in the same proportions so you get the same wonderful results.

Many other tasty things can be made with Aunt Jemima Pan-cake Flour...waffles, muffins or pancakes with jelly. Or, if you prefer the tang of buckwheat, it is just as easy to use Aunt Jemima Prepared Buckwheat Flour. Keep both kinds of Aunt Jemima always in the pantry.

THE VERGILIAN YEAR

"Calebration of the birth of Vergil two thousand years ago is this week underway throughout the Western World," asys the New York Times. "In the United States, universities and colleges are paying homage to his memory, and wherever there is a high school class in Vergil, there, too, he will receive special remembrance. But the world was to receive the properties of the thought will be turned these coming months in the direction of the Mantuan, who, as George Edward Woodberry said, is the 'poet whose verse has had most power in the world.' Reliability and economy are outstanding features of the new Ford

ENTHUSIASTIC letters about the Ford car arrive daily from every is typical of a great number received.

"Just a word regarding our experience with the Model A Ford.

"In the first twelve months it was driven more than twenty-four thousand miles over all kinds of roads and in all kinds of weather, from the nearly impassable roads we had in the spring through the burning summer heat. Also through the heaviest of rainstorms where many cars were dead. and had to sit on the roadside until they were dried out and pulled in, and through deep snow.

"The valves were ground at twenty thousand miles and apparently the car was running perfectly at that time, but some of the service men thought it would be advisable to grind them. Inspection of the motor at that time showed it to be in perfect condition.

"The only replacement expense we had was 75c for a shock-absorber link and 50c for a new rubber for the windshield wiper.

"The car has given an average better than twenty-four miles to the gallon of gas. We are well pleased with the performance of the Model A Ford car and believe it is the most economical car on the market."

Thousands of other Ford owners report the same satisfactory service

THE NEW FORD THREE-WINDOW FORDOR SERAN

and unusual economy of operation and up-keep. In comfort, safety, speed, power, beauty, reliability and long life-in everything that goes to make a good automobile—the new Ford is a value far above the price

Because of this value, the new Ford is outselling every other car in Canada by a large and increasing margin. In some sections, between 50% and 70% of all cars sold are Model A Fords. That's something to remember.

Low Ford Prices

There is a Ford car for overy need and pur-pose at an unusually low price. Appointments and upholstery are in keeping with its mo-chained excellence. You may choose from a variety of beautiful body colors.

This has been the uniform experience of those municipalities which took over their own distribution systems in the past few years, Belleville among them.

Already here the municipality has secured a reduction in power cost and also improvement of the lighting system which has just been inaugurated

CANADIAN HISTORY

That textbooks on history should be of Canadian sorigin before being used in Canadian schools is the lopinion of the Chambers of Commerce and Boards of Trade of Ontario. Practically every Canadian will agree with this for the angle from which a subject is taught to the young is very important. Only a Canadian can probably be quite fair to Canadian can be considered to the control of the canadian can be considered to the can

young is very important. Only a Cansadian can probably be quite fair to Cansadian can be considered to the constant of the cantake an absolutely impartial view. Correct
suppreciation is possible, most people beflieve, from one who knows Canadian history as a Canadian.

Distortion of history does not prove
that a writer is intentionally and wilfully
is more likely, according to the Chamflies of Commerce, to have the correct
viewpoint and sense of appreciation of the
aims and hopse of the Canadian people.

There should be a small history dealising with the founding and settlement of
the condition of the control of the control
chambers. Every one will agree that
this is an admirable suggestion. To many
history does not extend back beyond a few
years ago and the great past appears history does not extend back beyond a few years ago and the great past appears but a hazy wilderness whereas it; is full of the finest of romance on which any children might be brought up. Such pumphlets would enrich local patriotism and would prove a mighty force in directing the formation of the ideals of the young by knowledge df the deeds and achievements of their ancestors.

It has been said of the unfinished eather the property of the

the British Isles and the distant peoples of the Empire. What it could transport would be slight compared with what its very appearance in the skies of Egypt, India, Australia and South Africa would aignify.

Some one has asked after seeing the stupendous Beauvais, "Was man meant for the superlative on earth?" There is

but one answer, Britain will make it, even in the presence of a disaster that has shocked the world.

MARION TALLEY, the operatic singer, left the stage to take up farming. Now having passed with honors as a Master Farmer she purposes coming back to the stage? One newspaper hints that the corn crop failed on Marion and she is seeking more appreciative ears.

BRAIN CROWTH

A doctor states today that the brain must grow with the body or there is no use in living:

use in living:

Some men have arisen in protest to state that in age the brain does not develop but that yet old men experience pleasure in living.

However it does stand out as a fact that hard work and study do not kill the body and they develop the body and brain canacity:

capacity:

Indeed activity is the surest guarantee of a wise old life. He who retires from activity to live in peace, lives not long, but soon finds his way into the regions beyond

THE GIFTS OF LOVE by Aline Michaelis

These are the gifts of love:
More gladness for the Earth,
More trust in heaven above,
More tenderness, more mirth.

Love comes with laden hands Bringing us priceless things, A heart that understands, A faith that soars and sings!

Love has no doubts or fears
To mar its joys complete,
No fierce distrust that sears;
True are its thoughts and sweet.

These are the gifts of love:
Clear looks and honest praise,
And tranquil hours that prove
How blessed are love's ways!

Do You Want More Branch Factories?

What is a factory worth to Canada, that gives steady year-round employ-ment to five thousand hands?

It depends upon when it is to cated, doesn't it? It it's located in Canada, it's worth a sun when it's located doesn't it? It it's located at our very border, it's worth a sun which of Canada, it may be worth nothing at all to use, it any event, it is almost certain to be worth for less than the branch it might be prevended to establish in Hall-in, or Vanouver, or any point in between, even though that branch dave steady employment to only fifty hands.

No matter where they locate in relation to where we reside, we're always delighted to hear of branch factories being established in Canada, because of the amployment they create for Canadian Islaur, the matter they provide for Canadian Islaures and Canadian merchants, and the business activity they attenuate in counties ways and in counties.

Thus far, in our efforts to promote their establishment within our borders, we have made use of but one lever—our tails. For a time it growd to be a very deletine, but of seen years the annual crop of branch feetories has been learn-quite disappointingly so when we reflect that the justification for their establishment about be greater than ever belong due to the fact that our annual imports of unerchandles keep stedily increasing.

THE DEMAND FOR IMMORTALITY Sheer Paganism reigned in the great cities of the West before thewar; belief in cities of the West before thewar; belief in immortality was on the wan; people lived in "an extraordinarily self-confident civil-ization," which was "devold of reverence for the spiritual." But in 1914, says Sir Robert Falcon-er, President of the University of Toronto, in his Ingersol lecture on Immortality at

in his Ingernoll lecture on immortancy what Harvard, the scene changed. On the one hand, as he is quoted in the New York Times, was the hopeful yearing of millions who had lost loved ones, and on the other, the depression over the failure of science, and morality to prevent the conflict

the conflict.

But out of it all the hope of immortality arose again.

Values shown on such a huge scale in devotion and sacrifice demand "a far wider exercise for their existence—values so essentially noble that Reason can not believe that the destiny of those who have incarnated them ends "at the blank wall of death."

The last word of the lecturer leads us

The last word of the lecturer leads us hopefully on:

"Whether or not a local habitation may be found for us in our future state among the vast spaces of the universe, it is reasonable to hope that there is a Realm is reasonable to nope that there is a Realm in which the company of those who have sought to know, to pursue goodness and to love their fellows and all things pure and beautiful, will find scope for the realization of those desires in such measure as transcends our present power of imagination."

There had been several earthquake shocks in a certain district, so a married couple sent their little boy to an uncle who lived out of the danger zone.

Can she sing."

ST. MICHAEL'S CELEBRATES

St. Michael's parish is celebrating to day one of the greatest occasions in its history in the opening and blessing of the new St. Michael's Academy on Church Street, a school which has served in the st and which since its restoration on a vastly larger scale has undertaken part duties of a high school. Believille has now a complete system of educational institutions and not the least is the new St. Michael's Academy. In architecture, and in construction it stands as the peer of any institution in the province.

St. Michael's parish has built solidly ad well. Educationally this parish has been well guided from its earliest days until the present when a Catholic child can enter a modern institution and continue studies there until part of the way through

his or her high school course.

The local parish has always had as priests men who have been educators. Among these the more recent were the late Father Twomey and the late Father Killeen, whose works survive them not only in the present school but in hundreds upon hundreds of lives which have been ssed through the instrumentality of the instruction given in the schools. zeal is now going to reap the fullest harvest and in the newly appointed parish priest, Monsignor Nicholson, a continuance of the educational advance of St. Michael's is anticipated.

.Today this new school was officially opened by His Excellency Most Reverend Andrea Cassulo, Apostolic delegate. To-night the Knights of Columbus will in this fine structure banquet the ambassacior of His Holiness the Pope. There will be linked church and state in one bond which spells harmony and unity.

From the year 1827 when a small frame church stood where the stately edifice now rears its spire to the year 1930 is a long period in time, but all through this

a long period in time, but all through this one hundred and three years the people of St. Michael's have played no small part in the civil and religious life of the city. It is fitting that the presence of the Apostolic legate and this great event in the State of the city of the ci saoud of marked with rejoicing and with the religious pomp and ceremony which body can do justice to the importance of such a time in the history of a parish. It is the crown of the educational life of the people of St. Michael's, the culmination to-wards which all past educational efforts have led.

Baye led.

Baffeville as a city is keenly interested in the progress of this congregation and the people of other communions join in wishing the parish of St. Michael the Archwashing the parish of St. Michael the Archangle continuance of the blessings and the brogress which have marked its record down the past century. They feel that this parish is, but as it were, on the threshold of its greatest influence for good upon the lives of the people in the attention given matters of religion and in the improvement of, citizenship through education.

PLENTY AND HARD TIMES

It seems an anomaly that there should be distress when there is plenty but that is what happened in the wheat market and in the industrial situation. Too much wheat to handle comfortably and too much pro-duction for the consumer to absorb drives prices down. It would even seem that unduction for the consense. It would even seem that under the present system it is only with a disaster in harvesting that wheat should go up in price. Yesterday the wheat market did advance when the full import of the situation in Western Canada was realized that a large amount of wheat would never be harvested owing to damage by early snow

hen there is plenty there ought to be rejoicing, one would naturally believe.
There must be something wrong with a
man-made system which acts so by contraries.

The autumn days! How glorious now, The leaves float down from every bough In brilliant hues and gild the brow Of thy fair hills, Ontario.

The song of summer bird is gone, And hushed, too, is the insect's song. We miss their music now among Thy autumn glades Ontario.

Its leaves the noble maple sheds Like crimson drops of those who bled To saye thee from a foeman's tread, Their native land, Ontario.

But oft when night her curtain draws O'er thy fair scenes, our fancy goes To that great land where blooms the rose And wildflower, Ontario.

That land of brightest sunshine gay
Of bright blue skies were not a ray
Of cloud or mist dims all the day;
But we love thee best Ontario.

— Matilda Arthur.

PRINCIPLES IN EDUCATION

PRINCIPLES IN EDUCATION
Two motives in education, goodness
and disapiline, were stressed by the Most
Reverent Andrea Cassalo, D.D., papal delegals, at the opening of St. Michael's
Eggels, at the opening of St. Michael's
Eggels, at the opening of St. Michael's
Eggels, at the opening of St. Michael's
Thosa two guiding principles mean success
in lifs and it was fitting that the children
should have these principles pointed out
to them as the ideal in education.

The young of St. Michael's parish have
in this magnificent school and in their
teachage fleen provided with the essentials
of fraining towards what is good. Those
who, visitled the school yesterday and attended the blessing of these valia and the
reduced the Dessing of these valia and the
fleens, for both discipline and good has
eagen implanted, here as the foundation of
education.

ONTARIO HOUSE

The Province of Ontario has, now a truly representative "house" in Britain which will be in keeping with the importance of Ontario. This building was opened, a few days ago by Premier Perguson.

B. is- but fifting that Ontario should possess a showplace and a home in the Old Land which meets in some way its im-

portages ag use of the provinces of the Domiston. Though immigration has been restricted of later as a result of depression, this office will play no small part in keeping Ontario in the eye of the people of the Mother Land.

HIS INTEREST IN LOCAL PARISH

HIS INTEREST IN LOCAL PARISH
St. Michael's parish has this week been
especially favored with the presence of the
representative in Canada and Newfoundland of Pope Pius. It is a rate occasion
when a papal delegat has time to accept
the one which he has visited on a previous
occasion. But this the Most Rev. Andrea
Cassuito, B.D., has done, giving three days
to this parish in the midst of the heavy calls
upon his time and energy. Parishioners
appreciate the especial and kindly interest
of, the Apostolic Delegate in the Belleville
parish, 129.

UNEMPLOYMENT RELIEF

That Belleville is going to secure un-employment aid for relief work in this city this winter provides the assurance which anumber of people will be pleased to hisve—that there will not be lack of employment here during the winter ronths. The city council has been active riponts. The city council has been active in this respect and has made is claim through the mayer and other members of the council so that the city will participate in the fund for this purpose. The mayor's assurance has been given that the city will not find itself unfairly treated in this regard when compared with the aid given other municipalities.

WEATHER PROPHECY
Ottawa Citizen proceeds to rap the
"sage of Chatsworth" on what is termed a
breakdown in his weather prognostications
in the recent storm and the unduly severe
October weather.

in the recent storm and the unduly severe October weather.

But the sage does not claim never to have made a mistake and people in Eastern Outario can feel that he has not missed fire yet, for the snow, did not strike this did, though it did his own field of observation is a pritium star of the same of th

Weather prophete can generally take it for granted that the alignest error in forecast will be fung tack in their faces, and the forecast will be fung tack in their faces, about the weather, and their faces, and the faces are so that we there is a bout the weather as all good farmers hereabout know though few of them would dare to predict far ahead what the temperature will be. Rural residents naturally are called upon to observe signs and all do so to a larger or a smaller degree. City dwellers generally trust to the country dwellers to tell what the weather will be.

SIDELIGHTS

LOOKING AHEAD Locking ahead, life is always kind; Looking ahead, we can hourly find Much that will bring to us strength and

cheer, Tasks to be done or duties clear.

Looking ahead, we can better plan Work we would do for our fellow-man; Every vision and aim will glow Bright with the future's hope-brimmed

Promise will gleam with its rainbow light, Love will lead to life's lost delight; Looking ahead, we can still devise A purpose that wholly satisfies.

Thus as we live our life, looking ahead, Over the journey a splendor is shed; Courage and power each day dawn anew, Looking ahead to the good and the true. -Aline Michaelis

BELLEVILLE THE BEAUTIFUL is BELLEVILLE THE REAUTIFUL is all right, but Belleville the Busy is better and everything about Belleville to the eyes of the beholder betoken busy times at present and better times to come. That Belleville is progressing the think of the beholder of the progressive spirit which betchen a go-shead community. Why accept LESS than this in a Radio?

EVERY factor that governs the choice of radio this season leads inevitably to DeForest Crosley. DeForest Crosley has assumed dominant leadership by presenting radio's most advanced features at values unthought of in previous years.

1930's Most Important Tonal Development

DeForest Crosley alone offers you Harmonic Amplification the great new development by which the harmonic overtones so essential to true musical expression are faithfully reproduced throughout the complete range. It alters all previous conceptions of radio music.

New Proof of the Value of DC Resources

Yet continent-wide resources and outstanding production methods make this new DC achievement available at less than the cost of ordinary radio -representing more entertainment for each dollar you invest.

DeForest Crosley advances this season's radio as truly "your radio for years to come." Such musical expression as it reveals to you will not quickly become obsolete. You are investing in permanent satisfaction for

Some gasolenes are built to make a showy effect in starting—some in pick-up-some in anti-knock performance. Unfortunately these effects are produced at the sacrifice of other phases of performance equally important

Koolinotor, the original high test, antiknock green gas, combines the best points of all gasolenes in one superior motor fuel -

Koolmotor - the gas that is good throughout-excels in all the 11 points of gasolene quality. It is laboratory tested 11 times in the most exhaustive tests ever given any gasolene - tests for starting, acceleration, anti-knock, power, vapor pressure, odor, corrosion, sulphur, gum content, distillation, and mileage.

You don't have to try 11 different gasolenes to get the good points of each. They're all combined in one; Koolmotor, the gas that gives you the greatest mile-by-mile performance money can buy - one gasolene that really justifies its premium price.

A lad who looked about 13 was leaning against a wall smexing, a cigaret, when an elderly woman approached him.
"Does you father know you are smoking, little boy?" she inquired, bitterly.
The boy regarded her open-mouthed. He took a few more puffs from his cigaret and looked her up and down steadily. Suddenly he caught sight of the wedding ring on her hand. You're a married woman, aren't you're he said.

"I am," agreed the woman.
"Then," snapped the boy, "does your husband know you speak to strange men?"—Ex.

A fine election campaign, with a keenly aroused and appreciative electorate will end at the polls this December and the contest will be keen. This will prove all the better for the municipality.

THE WEATHER AND FIRST SNOW

THE WEATHER AND FIRST SNOW

At this season of the year men and women naturally regard the weather with mose than ordinary interest. Many comments and views on the late autumn have been observed in the newspapers but anone more interesting than those expressed The Theorem of the thing that those expressed The Theorem of the thing that the thing that the season of the thing that the thing the thing the thing that the thing the thing that the thing the thing that the thing the thing the thing that the thing the th

and ambitions, that too often are sadly-blighted, but like the flowers may spring and flourish anew, from the deeply buried roots. During the storm, the lake, that is now flowing placidly beneath a fleece-fleeked sky, was lashed to foam by the western wind, that in its turbulent play, swayed the branches of the trees, until their painted leaves were strewn over the ground, forming a colorful carpet for the treed of passing school children trees the street of autumn storms—these having an invigorating influence on our torpid summer-cur-felded sphrits. Little wonder is it that people of the tropies so often become both the street of the str

"The weather is a time-worn subject, allusions to which in conversation usually follows a personal greeting. A Toronto reader, in fact the only correspondent who has ventured to stir me up with adverse criticism of my subject matter, objects to my occasional references to the weather, weather everywhere. But for his benefit I should like to say that here in this country, there is requently very, little else but the sizings in climatic conditions to break

the monotony of rural life. So to end this tirade on the weather, now that the first anow storm of the season is over, we are hoping for some fine days in which to gather the apples, adjust storm doors, and put up stovepipes and to accomplish other december of the work of the company.

Cheap Things are Cheap!

They cheapen those who make them, those who sell them, those who buy them. They pull down Canadian industry. They lower the Canadian standard of living of our homes, our wages, our lead-ership in the world.

Belleville is prosperous above all other cities, because it has never cheapened its labor, its rewards of labor, its higher standards of the people, or placed restrictions on their method and comfort of living.

Trading up brings better things to all the rauing up brings better service, better, satisfaction in the long rum. Fewer things, but better, bring us more happiness. Quality is night upbuilding than quantity. Cheapness is a delusion unless backed with quality.

DOROTHY DIX writes Feminine Daintiness...

BELLEVILLE Girl's Letter

MARCIA C hasn't found the key to

"He likes me, Miss Dir," she writes, "but there isn't a sign of his falling in love with we, and yet be's the cos man in the world—" To all the girls like Marcia in this city I want to say . . . don't be disheartened romance can be yours. It is every girl's birthright.

To win out, Marcia, you must have first of all, faith in yourself. Faith in you daintiness—your charming femininity.

Clothes will help you . . . for clothes have a subtle effect on a woman's psychology . . . and I don't mean just the clothes that show.

When everything you wear—including your lingerie, your stockings, all your intimate things—is very dainty, colourful, you yourself feel perfectly charming. And because you FEEL charming you ARE charming.

medup in two simple rules

FIRST: Buy the lorelisat, laciest under-things you can, for they make you believe in yourself.

SECOND Keep them colourful, shimmering, like new—for drab, faded under-thing cenned give you this feeling all delay femininity:

You may ask, "But how can we keep these delicate things colour-fresh in spite of fre-quent washing—colours fade so easily!"

W. M. MONEYON, PORT ELIEF OF UNEMPLOYMENT

RELIEF OF UNEMPLOYMENT I: came as welcome news to the people of Belleville to learn that the year of Belleville to learn that the year of the people of Belleville to learn that the year of 22,000 from one of 245,000 on sewers and on the people of 245,000 on sewers and on the year of 245,000 on sewers and Relief Paul.

Mayor Reid and the council deserve the highest commendation of the citizens on their determined efforts to secure the aid which will make possible certain public works in the winter months when construction is a little more coetyl and which will provide simployment to a, number when employment slackens and a number of men may naturally expect to be out of work.

Those people in Belleville who will most need work at that season may rest assured that they will be the persons who will receive consideration when men are required for relief work.

This is an encouraging situation for the city when it enters upon the winter.

When Mayor Reid recently said that Belleville, would not be dissopointed as the amount of the relief this city worked he said what has since proven true.

OLD TIMES AND NEW

OLD TIMES AND NEW

Old time stable yards where hones and wagons used to be Jeff served a useful yaupose. Today citizens wish, there were some such places to take care of metorcars in lieu of parking on the main streets to the interruption of traffic. Who does pot also remember the finely mouthed the contract of the contract of the present of the process of the contract of the present parking scheme!
Front Street had plenty of stable yards. But there are now few service station-yards in the same area that could accommodate so many cars as old stable yards. But there are now few service station-yards in the same area that could accommodate so many cars as old stable yards. But there are now few service station-yards in the same area that could accommodate so many cars as old stable yards. But you have a service station yards in the same area that could accommodate as on the process of the yards to be tied has to find some other-place where he may fasten himself.

Oshawa Times looks for the order of these accommodations in the way of posts and rings but it would seem that the trend is against the proposal.

Don't be Penny Wise Pound Foolish!

Has it ever occurred to you that bargains, even honest-to-go bargains, are not always an unmixed blessing?

Of course many so called bargains are not real bargains at all. Like the roay apple that is rotten at the core, they appear to be something that they are not. A bargain is only a real bargain when it is offered you at a price less than what the article is really worth.

Due to causes that predicate a loss to some Canadian producer, real bargains are sometimes available to you. And when they are, and you need the excited offices available to you. And when they are, and you may be a compared to the control of the compared with the compared to the compared with the compared with the compared to the compared

But when the subject of the bargain is a foreign-made article, the whole situation takes on a different aspect.

It is a not it he foreign product, whom you would be helping our of a like as not the foreign product, whom you would be helping our of a whole the Canadian cost of producing the same article. And if you were to institute anguirths with a view to finding out why his production cost was minituded to the production of the production cost was his employees rates of wages that were away below the scale p-d for similar work in this country.

BETTER TASTE IN HOUSES

The American Architect quotes Charles H. Cheasey, with American Institute of Architects, in its current number as stating that "three-fourths of all the houses in the country are so ugly and so badly planned that they were liabilities from their inception." But there is a change for the between

. The swing to better designed houses

The swing to better designed houses has already started. Buyers have helped tremendously by demanding better design. Builders who have sensed this tendency and build better designed houses find they can sell titler products much easier. This demand for better and more spatish houses at all events in the neighborhouse that are arrising in an about this city are in the major the country of the c advance over those which were reared twenty and even ten years ago. They are

the work of architects of taste and discrimination, and the result is an inner satis faction to the owner and a material asse

faction to the owner, and a material asset to the community.

Many of the hopes in which live persons of modest means, or no means at all, are still appallingly ugly. And the unfortunate part of it is that so many of their occupants appear to be anesthetic or architectural hideousness. Nevertheless there are increasing signs to indicate that taste in domestic architecture is rising generally. These are good signs, and it is to be hoped that they continue to multiply.—Oltawa that they continue to multiply. Ottawa Citizen.

SIDELIGHTS

ROSES

There are three roses in a bowl, Red rose, pink rose and white, Just lately from the garden brought To flood the room with light.

The red rose wears her beauty's lure As might a woman proud,
Each peal's vivid charm, each grace
To all the world avowed.

The pink rose is a promise still; Enchantments, vague and rare, Rise drifting from its hidden heart Upon the wooing air.

But, oh! the fragrant white rose stands In loveliness agleam, With touch of moonlight lingering there It is a thing of dream!

Red.rose and pink for holiday,
For happy maids to wear;
But white rose for the one who finds
A dreams' white beauty there.

NON-SKID ROADS

The fame of Scottish roads and their remutable non-skid surfaces has spread all over the world. Recently experts from Warsaw and other parts of Europe Haye Islen jaying a visit of examination, particularly of the roads in Midlothian. The road surveyor explained why roads there were always in such good condition. He said:

The whole secret of the process is a special mixture of bitumen and a very large gravel of about three-quarter inch. We do not flood out roads with tar as they We do not flood out roads with tar as they do in maps places. Another factor is that the country owns its own quarries of Whinston and they are the most up-to-date quarries in the country. Everything is done by direct labor. Why you should buy a Majestic

A NEW Majestic Electric Radio actually costs you less to own and operate than many sets being offered at special bargain prices. First, because while you may buy some radio sets for less, the depreciation, service, performance and trade-in value wipe out this mythical saving and move, before a season has passed.

before a season has passed.

Most people now buy radies on time, so the purchase of a Majestic means but a few dollars more outley at the time of purchase and a few more mostly payments. At the end of that, time the value of the Majestic as a "trade-in" is definite and sure. There is always a demand for used Majestic, whereas the loss you will take on numbers "stenchis" or "papecials" or cheap radios built to a price makes your original purchase an expensive one acceptance one.

EMBARRASSING MOMENTS

What you eat for breakfast what you do determines before noon Sec.

OU will start the day wrong if your breakfast is poor, itionists say. Statistics show that into the four hours that follow the first meal, 70 per cent. of the entire day's work is crowded. Breakfast is impor-tant...it should furnish sufficient energy to last the morning through.

Quaker Oats is the breakfast unsurpassed for lasting food energy. The famous Quaker process retains every vital part of the out-proteins for gre carbohydrates for energy, ndant body building miner als and the important vitamines. Roughage, too, so that laxatives are less needful.

And what delicious flavor you find in Quaker,Oats! Richer ... more zestful. .. more satisfying than ordinary oats. This is because Quaker bakes choice whole oats to a delicious nutsweet tenderness. This precooking not only gives the wonderful Quaker flavor, but makes long home cooking unnecessary. Quaker Oats is the fastest cooking of all hot breakfasts, ready 2} minutes after the water boils.

Your grocer has the large house-hold package and the small 10 cent size. Quaker Oats are never sold in bulk. All Quaker packages contain coupons with which you can get useful articles

This year Canadian radio buyers have paid the supreme tribute to DeForest Crosley. More people are buying DeForest Crosley than any other radio.

Sales The Acid Test of Success

And there is the surest jest of the success of any product. No radio development in years has contributed so much to radio entertainment and radio values as the new De Forest Crosley models. That is why they have shattered every former radio sales record.

Harmonic Amplification No Radio Is Modern Without

For here DC engineers have achieved the industry's greatest advance in musical quality—Harmonic Amplification. For the first time all the colour of the essential Harmonic overtones are added to radio and phonograph reproduction. It will change all your ideas of radio music.

Demand Is Exceeding Production

This Canadian Company anticipated record sales during 1930. But record demands swamped all expectations. In spite of greatly increased production facilities in the vast DeForest Crosley factory it has already been impossible to keep pace with orders.

Avoid delay. See your DeForest Crosley dealer now.

property.

—Property represents wealth and labor and property destroyed is so much labor wheel out. Quite often the loss caused by replacements fails upon those least fitted tomake good the loss. To cause damage to property is a culpable offence and as such is rightly deserving of severe penaltits.

In fact fun ought to be all the more when it is free from destructiveness; st year there was considerable damage year there was considerable damage contrary to impectations as previous years half passed with little in the way of pro-pers less draught the observance. The opportunity awaits loys and years to carry my inclination towards wenter descretion.

HALLOWE'EN

Tonight the fancy and the imagination Tonight the fancy and the imagination will have some scant opportunity to roam about under the spell of All Hallow's fee. The tradition which has assembled about this occasion is one of the most appealing to the human imagination and still lingers in the popular mind.

This city will tonight give way to a celebration which has in eventuely the western world been allown of the mere world its features recognized the special properties of the second properties of the se

been anom or many or its returned recog-nized in the eastern world.

The elebration still offers opportun-ity for the exercise of the imagination and exercise of the wit in planning for the ce-lebration.

A SANE CELEBRATION

It is hoped that there will be discretion and exercise of control in the elebration of Hallower to tonight by the youth of the city. Of late there has been a reasonable ness in the eelbration but last year some alipped from the restraints and the result was darkings to memorate These is a control of the c salpped from the regraints and the result was damage to property. There is no reason for this as plenty of opportunity is offered for amusement and those who have an inclination to disorder and a riotous celebration should remember that he has the best wit and is the best sport who can find amusement and entertainment without causing damage or injury.

THE WEATHER

"The ignorance of the meteorologists of the U. S. department is astonishing, Dr. Willham J. Humphreys, chief of the meteorological staff, not only admits that he cannot predict whether a season will be he cannot predict whether a season will be colder or warmer than the average, but he doesn't believe anybody else can, either," says the Hamilton Heraid. "It is utterly impossible, he declares. "No two seasons are alike and they often differ wid-ly-!. This expert points out that studies have been made in all parts of the world with the idea of learning how to forecast the next season's weather, but hardly any have been published because the thready as the contract of the co mais or the thickness of corn husks or the amount of honey the bees have stored up. The fur depends on the animal's physical condition, husks don't amount to much in a drought year like this and bees are likea drought year nice this and oees are like-ly to sting you if you go nosing around their hives. Dr. Humphreys has an-other skeptical running mate in Dr. Oliver Fassig, a climatologist, who has been in the U.S. Government service for 47 years. the U.S. Government service for 47 years. They are in absolute agreement on the point that the law of averages cannot be used in forecasting and these two high-salaried officials candidly admit that they whose job is weather forecasting, havent, the faintest idea whether the winter that lies immediately whead will be mild or a real old-fashioned, winter."

THE TONE IS CHANGING

"It was the poet in John Masefield, of course, who can look back over his past as a country lad and describe it as he did as a country lad and describe it as he did in acknowledging the freedom of Hero-ford. He saw the land as full of the beauty and bounty of God, peopled by men who sang when they brought the harvest home. As a child he felt that red earth, woodland, straum and hill were the shad-ow, the frontier of Paradise;" says New

TEST by TEST mile by mile

WHEN we say "test by test, mile by mile, Koolmotor is the finest gasolene you can buy -we mean it-it's a fact-we've proved it!

In the laboratory this thorough bred among motor fuels must passeleven of the most rigid quality tests ever applied to any gasolene -tests for starting, acceleration, anti-knock, power, vapor pressure, odor, corrosion, sulphur, gum content, distillation, and mileage.

Should a single gallon ever fail to meet any one of these eleven rigid tests, it is never offered for your use. You can bet on the fact that every gallon of Koolmotor Gasolene pumped from a green and white pump is full of unchallenge able service and quality-test by test, mile by mile.

Why be satisfied with a gasolene whose benefits end with a showy effect in one phase of performance? Insist on Koolmotor-the gas that gives perfect performance from the time you start your car until your foot calls a halt to your drive.
